

Planetrehab 2.391 Release Note February 4th, 2018

We have added a new field to both the Appointment Detail (Appointment Book) and the Visit Detail (Appointment Processing)—the Check # field.

The Check # field is used to enter a description for a payment entry in the Copay to Apply field. Users can enter up to 15 alphanumeric characters in the box. It could be the actual check number, the credit card type, cash, etc. The user decides what to input into the field. We suggest that users be consistent with the description. For example, if the payment was done with a check, enter Chk 1234. Or if the payment was done with a MasterCard, enter MC.

Copay Paid	\$0.00
Copay To Apply	\$0.00
Check #	
Deposit Date	02/05/2018
Copay Req	\$20.00

Whatever is entered into the Check # field will show up on the Detail Ledger (Patient Profile). It also gets entered into the Special Field (Appointment Processing>Visit Detail).

We will be able to create reports that will include the Check # field.
