

Planetrehab 2.302 Release Note August 10th, 2014

Statement History

We have implemented an easy way to review a patient's statement history. The history shows the patient's current balance, aging, the statement date and the amount billed on that date. You will only be able to view the history if the patient has been issued a statement. If the patient has not been issued a statement, the option will not be available.

To view a patient's history, find the patient file. The patient history button is in the lower right hand corner. When you click the statement history button, the quick view screen will appear. This gives you a quick way to review the patient's history.

Note that statement(s) must have been mailed by Planetrehab to your patients when we print and send patient statements. Clinics that do not use Planetrehab to send patient statements will not have patient statement history.

Statement	Balance	Current	Over30	Over60	Over90	Over120
3/10/2014	70.00	0.00	0.00	70.00	0.00	0.00
2/10/2014	534.00	7.00	527.00	0.00	0.00	0.00
1/10/2014	527.00	527.00	0.00	0.00	0.00	0.00

You can also print the patient's history by clicking on the print button.
